P58 SAX NECK DRIVER/RETRIEVER

This tool removes dents from between where the rod and ball stop coming in from both ends in a tenor sax neck. You can knock out dents as easily as on any baritone or French horn and quick!

See how Peggy from Halton Music in Ontario Canada successfully used this tool.

Before

After

See the quality of work. Notice the profile and contour of the restored tube (which is no longer available for purchase), was restored with NO hammer marks! This was a great job, especially for the FIRST TIME.

PARTS WANTED

~Mouthpipe for Conn Baritone Sax, Naked Lady, Student Model. Call Thomas Swiatek at 731-925-0115.

~1st valve for J.W. York & Sons Tuba. SN: 16678-Diameter: .928", 4" long. Call Dick at 413-283-4997.

~Neck for 1950's-1960's Conn Director alto saxophone in silver; register key and posts for same; upright bell for Conn 801 euphonium; lead pipe for same. Please contact thjaders@yahoo.com.

~Clothes guard and screws for an old Noblet Tenor. Contact Bob at rsilvia1@juno.com.

~Neck piece for a Buescher baritone sax 400. Contact William D. Rich. Forest City, NC. 828-245-4477.

~Neck for a Conn alto saxophone, pre-M-series ("Chu-Berry" or "transitional" model. This is for a 'stencil' model, clearly made by Conn, with key work identical to the "Chu-Berry" era altos (except it has same-side low B, Bb keys). Tenon outside diameter should, ideally, be very slightly over 15mm. Contact Kurt Bjorling at 847-475-3905 or KB@muziker.org.

~Lower of the two register keys for a 1922 Buescher truetone soprano sax in the key of C. Contact Charlie at chasm39@comcast.net.

Are you looking for a part? Call, email or fax us with the information about the part and your contact info. Then, we can put a **FREE** want ad in an upcoming Ferree Press.

46 YEARS LATER!

Pictured are Barbara Ferree and Paul Luciano, meeting for the first time in 46 years. Barbara, who lives in The Villages, FL part of the year, had her picture taken in Waterville, Ireland this summer with a statue of Payne Stewart, well known PGA golfer

who was killed in a freak airplane accident several years ago. The Villages' local paper published it and Paul, who was in the very first repair class that Ferree's ever had in February 1962, happened to see it and called Barbara. A few days later the two had an enjoyable meeting after a concert in which Paul was in the backup band for songster Steve Lippia.

February 1962 Repair Class
Paul Luciano is standing at the far left.

ITEM IN THE SPOTLIGHT

EMERGENCY REPAIR KITS

Q29~Deluxe Repair Kit~\$874.50: This kit contains most items necessary for on the spot repairs to "keep 'em playing." The items come in a sturdy box.

Q30~Standard Repair Kit~\$275.00: For band directors or salesmen who don't want to get into emergency repairs deeply enough to buy the Q29, this Q30 Standard Kit will solve many problems.

Q31~Economy Repair Kit~\$148.50: This kit is for minimum repair emergencies. Take it with the band to the football game or parade. Also useful to the college music major. A lot of repair potential at a minimum price.

See more information on the items above in our 2008 catalog or online at www.ferreestools.com.

For the first two years Ferree's repair classes were sponsored by Richards Music Company. Since that time there have been over 400 people who have attended repair classes given by Ferree's. Paul was originally from Erie, PA, moved to Ocala, FL in the early 80's and had a shop there until 2005 when he retired and sold his business. He then moved to Summerfield, FL, which is north of the Villages and continues to play in various bands in the area.
